

# Reddit And Community Launch Map

Source course section

Map communities, rules, useful angles, and feedback loops before posting.

## Community Fields

- Community name and link.
- Audience overlap.
- Posting rules.
- Useful angle: feedback request, problem discussion, lesson learned, or workflow question.
- Allowed CTA.
- Owner and post date.

## Pre-Post Checks

- Read recent top posts and moderator rules.
- Ask a useful question or share a practical lesson before selling.
- Avoid posting the same launch copy across communities.
- Capture objections and buyer language for the launch page and FAQ.

## Follow-Up

- Reply with substance.
- Log repeated questions.
- Convert useful objections into FAQ, posts, demo clips, or comparison pages.
